

# Neptun - ship - miniatures

Neptun waterline ship models are super fine detailed, hand painted, metal fine delicate precision 1:1250 scale. These are incredible beautiful, the accurate models refer to the World War II. This line is considered by many to be the best of its kind in the world. Neptun models are finest miniature in metal. "Waterline" means that the models sit on a flat surface and look as the real ships would like afloat.

Models without prices are not yet available, however orders for those will be accepted if their completion can be expected in a reasonable period of time. If desired, standing orders can be placed for new models. Such orders will then be delivered automatically.

Models marked with a "V" are equipped with miniature battle flags and intricate radio antennae hand-tone with thin dread. These are special, particularly high quality models with rigging. They are very beautiful and are delivered in a plastic acrylic showcase, firmly screwed on a wooden base with a nameplate. Models marked with a "T" are with camouflaged painting.
